IELTS & PTE

ABOUT IELTS

The International English Language Testing System (IELTS) is the world's most popular English language proficiency test for higher education and global migration. IELTS assesses all of your English skills — reading, writing, listening and speaking, and is designed to reflect how you will use English at study, at work, and at play, in your new life abroad.

The IELTS test is developed by some of the world's leading experts in language assessment. It has an excellent international reputation, and is accepted by over 9,000 organisations worldwide, including schools, universities, employers, immigration authorities and professional bodies. IELTS is the most widely accepted English language test that uses a one-on-one speaking test to assess your English communication skills. This means that you are assessed by having a real-life conversation with a real person. This is the most effective and natural way of testing your English conversation skills. You can take IELTS Academic or IELTS General Training – depending on the organisation you are applying to and your plans for the future.

ABOUT PTE

The Pearson Test of English Academic is an English language test designed to assess the readiness of non-native English speakers to participate in a university-level English language instruction program. Pearson English International Certificate is consistent with a theme-based exam designed to test how well a learner can communicate in authentic and realistic situations, and not on how well they remember formal vocabulary and structures. They test the four skills: reading, writing, listening and speaking. The test will be a maximum of 2 hours and 15 minutes long and takers can expect their results to be delivered to them, online, within 5 working days.

- PTE accepted for study applications by thousands of academic programs around the world in prestigious universities.
- PTE Academic is also approved for all Australian and New Zealand student visa & immigration applications.
- PTE Academic's results are typically available within 5 Business days.
- The PTE Academic score is valid for 2 years.
- PTE Academic offers flexible dates and time to best fit your schedule.
- The test is scored 100% by computer to ensure all test takers are assessed impartially and accurately without subjective input from human examiners.

STUDY IN AUSTRALIA

Australia is known globally as one of the world's most diverse and welcoming countries. The Australian education system is distinguished by the Australian Qualifications Framework (AQF) – the national policy established in 1995 that specifies standards of qualifications from the tertiary education sector (higher education, vocational education and training). Its quality of education, variety of courses to choose from, and post-study work opportunities make it one of the most desirable destinations among Indian students.

WHY AUSTRALIA?
